I have a **web development** experience of about 6 years as a **fullstack developer**.

I'm looking for a new experience as a **fullstack developer** (as well as frontend or backend developer), a new team where I could develop my skills, share and get experiences and contribute to the development of the project.

Development skills: (Frontend; Backend; Web interfaces design)

Angular 2-6, HTML5, CSS3, SASS, jQuery, Bootstrap 3/4, JavaScript, TypeScript

Node.JS, Python, PHP, Yii 2, Java Core Spring

MySQL, Redis, Docker, GIT, Bash

Languages: **English** (advanced); **Hebrew** (conversational skills); **Russian** (native);

Experience:

2018 - SAP (Innovation Center Network) Internship;

Project: SPA Web Application and REST API server

Tools summary: Angular 5, Java Spring 5, PostgreSQL, Python, Docker, Cloud Foundry, GIT

2014 – 2017 - Web-Developer, BelIntelForce (Gomel, Belarus);

Project: Web service for travelers

Tools summary: Angular 5, Node.JS, MySQL, Redis, Docker, GMaps API

Project: Web application for the furniture manufacturing factory

Tools summary: Yii 2, PHP, MySQL, jQuery, Bootstrap 3

Projects: Website developments

Tools summary: PHP, Yii 2, HTML5, CSS3, jQuery, WordPress (including plugins and themes development), OpenCart, ModX

since 2011 - freelance web developments;

Education:

2008 – 2013 - Academy of Music (pianist) – Minsk, Belarus (Bachelor's degree);

2004 – 2008 - College of Arts (pianist) – Gomel, Belarus;

2017 – 2018 - MASA Talim (Java and Android Development) – Ayanot, Israel;
